PDCA Board Approves New PDCA Industry Standard

PDCA is pleased to announce the PDCA Board of Directors approved a new PDCA Industry Standard, P15-07, at the Annual Board of Director's meeting held in Dallas, Texas on February 10, 2007.

One of the most important roles PDCA plays in the paint and coatings industry is in the area of Industry Standards development. PDCA standard P15-07 is entitled "Painting of Shop Primed Siding and Other Architectural Features."

The purpose of this newest Industry Standard is to establish procedures for the evaluation of shop primer applied by an entity other than the painting contractor, including but not limited to such surfaces as siding and other architectural features.

PDCA is committed to education and training, and great emphasis is placed on understanding the importance of how to use each Industry Standard. PDCA will also encourage the use of PDCA Industry Standards in all contractor work. By implementing Industry Standards, both in contracts and in practical application, a clear differentiation is created between a professional contractor and all others. Using these Industry Standards serves the interests of consumer and contractors alike.

PDCA now boasts 15 Industry Standards, which are all available for download on the PDCA Member's Only area at www.pdca.org. All subscribers to the PDCA Industry Standards Presentation Binder will receive the new printed standard plus a CD Rom.

The Standards Binder is a must for all painting contractors, architects, design pros, and general contractors. The binder includes the recently updated printed version and electronic version on CD Rom, Guidelines for a Successful Construction Project, and the New MPI Glossary of Paint Terms Manual, all in a PDCA three ring binder for easy access. (You may order the binder on-line at www.pdca.org or call Publications at 800-332-7322.)

PDCA, founded in 1884, represents the interests of independent professional painting and decorating contractors. Among the most prominent objectives of PDCA are the enhancement and business development of the painting and decorating profession and industry.

Today, PDCA represents the interests of owners and top-flight managers from more than 2,500 painting and decorating firms across the U.S. and Canada.
